

Sunday, April 29, 2012

Time Event

5:00 pm – 7:00 pm **Registration and Information Booth Open**

Monday, April 30, 2012

Time Event

7:00 am – 5:00 pm **Registration and Information Booth Open**

Pre-Conference Workshops

8:30 am – 3:00 pm **Chest Pain Center and Critical Access Hospital Chest Pain Accreditation - Day 1**

Donna L. Hunn, RN, MSc, MAN, ANP-C

9:00 am – 4:00 pm **Heart Failure Accreditation**

Robin J. Trupp, PhD, ACNP-BC, CHFNP, FAHA and Shawn Merhaut, RN, MSN, ACNP-BC

9:00 am – 5:00 pm **ECG Boot Camp**

William J. Brady, MD

4:30 pm – 8:30 pm **Chest Pain Coordinator Certification Boot Camp - Part I**

Donna L. Hunn, RN, MSc, MAN, ANP-C, Elizabeth Stokes, RN, BSN, and Team

Tuesday, May 1, 2012

Time Event

7:00 am – 5:00 pm **Registration and Information Booth Open**

12:00 pm – 5:00 pm **Exhibitor Booth Installation**

12:00 pm – 5:00 pm **Abstract Poster Set-up**

Pre-Conference Workshops

8:30 am – 3:00 pm **Chest Pain Center and Critical Access Hospital Chest Pain Accreditation - Day 2**

Donna L. Hunn, RN, MSc, MAN, ANP-C

9:00 am – 4:00 pm **Atrial Fibrillation Certification**

Philip D. Beckley, PhD

9:00 am – 2:00 pm **STEMI Boot Camp 2012**

David R. Burt, MD

4:30 pm – 8:30 pm **Chest Pain Coordinator Certification Boot Camp - Part II**

Donna L. Hunn, RN, MSc, MAN, ANP-C and Elizabeth Stokes, RN, BSN, and Team

Wednesday, May 2, 2012

Time Event

7:00 am – 5:00 pm **Registration and Information Booth Open**

7:00 am – 8:00 am **Exhibit Hall Open with Continental Breakfast**

7:00 am – 8:00 am **Abstract Poster Viewing**

Opening Sessions

8:00 am – 8:10 am **Address from the SCPC President**

W. Frank Peacock, IV, MD

8:10 am – 8:20 am **Opening Remarks from the Congress Chair**

Steve Berkowitz, MD

8:20 am – 8:45 am **Raymond D. Bahr Award of Excellence 2012**

1st Keynote Address

The Future Focus of Disease Management in the United States

Vice Admiral Regina M. Benjamin, MD, MBA (Tentative)

8:45 am – 9:30 am

Objectives: 1) Discuss the broad commitment of the government to improve the quality of patient care and outcomes. 2) Describe the impact of quality improvement on the cost of healthcare. 3) Discuss the role of professionals in crafting healthcare policy and reflect on the possible impact of this under the new healthcare law.

2nd Keynote Address

Million Hearts Initiative

John M. O'Brien, PharmD, MPH and Judy Hannan, RN, MPH

9:30 am – 10:15 am

Objectives: 1) Discuss the existing efforts and new programs the Million Hearts Initiative provides to prevent heart attacks and strokes across communities. 2) Describe the positive impact the CDC, CMS, FDA, health care systems, nonprofit organizations, and many other federal and private-sector agencies are having on improving the mortality rate caused by heart disease and stroke.

10:15 am – 11:15 am **Exhibit Hall Open with Refreshment Break**

10:15 am – 11:15 am **Abstract Poster Viewing**

General Session

Healthcare Reform: The Changing Landscape

Sandra G. Sieck, RN, MBA

11:15 am – 12:00 pm

Objectives: 1) Discuss the unprecedented challenges of maintaining and improving quality. 2) Discuss the impact of value-based purchasing (VBP). 3) Discuss linking Medicare reimbursement to hospital quality performance.

12:00 pm – 1:30 pm

Exhibit Hall Open with Lunch

12:00 pm – 1:30 pm

Abstract Poster Viewing

Plenary Sessions

Fasten Your Seatbelts: Listen, Learn, and Understand How to Move Science to the Bedside

Steve Berkowitz, MD

1:30 pm – 2:30 pm

Objective: Get a birds-eye view of what will be presented throughout the 2-day conference.

Recent Research: Oral Abstract Presentations

Brian C. Hiestand, MD, MPH, Moderator

1:30 pm – 2:30 pm

Objective: Four selected presenters will discuss their cutting edge research on Chest Pain Management, ACS, HF, A-fib, and/or Observation Medicine.

Concurrent Tracks

STEMI 2012: Evolving Partnerships in STEMI Systems of Care - Track 1

Moderator: David Carter, RN, MBA & David R. Burt, MD

STEMI Systems of Care: A Look Back Through Time

Mayme Roetting, RN, MSN

2:30 pm – 3:00 pm

Objective: 1) Review the history behind Mission: Lifeline-where the program is today and where it is heading.

The Partnership Unveiled - Mission: Lifeline - Where Do You Fit?

Chris Bjerke, RN, BSN, Lori Hollowell, RN, Jodi Doering, RN, and Kim Lambert, RVT

3:00 pm – 4:15 pm

Objectives: 1) Discuss the Mission:Lifeline Recognition Award Process for STEMI Receiving and STEMI Referral Centers. 2) Describe the Mission:Lifeline Accreditation Program. 3) Discuss the benefits of the partnership between SCPC and AHA.

Navigating and Understanding ACTION Registry-GWTG

Susan Rogers, RN

4:15 pm – 4:45 pm

Objectives: 1) Discuss how ACTION Registry-GWTG empowers health care provider teams to consistently treat heart attack patients according to the most current, science-based guidelines. 2) Discuss how your facility's participation can improve adherence to the ACC/AHA Clinical Guidelines recommendations, and explore the association between evidence-based treatment strategies and clinical outcomes.

The Partnership Unveiled Q & A

Panel

4:45 pm – 5:15 pm

Objective: Provide an opportunity for all participants to interact with each of the speakers within this track.

Tales from the Trenches: Challenges Faced by Cardiovascular Nurses - Track 2

Co-Moderators: Shar Brown, RN, MSN and Shawn Merhaut, RN, BS, MSN, ACNP-BC

Medication Reconciliation: What's in Your Bag

Robin J. Trupp PhD, ACNP- BC, CHFN, FAHA

2:30 pm – 3:00 pm *Objectives: 1) Identify common barriers in the med reconciliation process. 2) Recognize important key stakeholders in the med reconciliation process. 3) Identify best practice strategies for a successful med reconciliation program.*

ACS: Where are We Today?

Margaret Harvey Grannitto, ACNP

3:00 pm – 3:30 pm *Objectives: 1) Define the current evaluation of ACS patients. 2) Identify strategies for early treatment of ACS patients. 3) Discuss new pharmacologic and non-pharmacologic strategies in the treatment of ACS patients.*

Rapid Response Team: In-House 911

Donna L. Hunn, RN, MSc, MAN, ANP-C

3:30 pm – 4:00 pm *Objectives: 1) Define various roles of Rapid Response Teams in the care process. 2) Recognize the specific role of RRT in the evaluation and treatment of in-house ACS patients. 3) Discuss implementation of strategies for successful Rapid Response Teams for in-house ACS patients.*

Care Transitions Model for Heart Failure Patients

Lynn Shopiro, RN

4:00 pm – 4:30 pm *Objectives: 1) Define the Care Transitions Model. 2) Discuss how Care Transitions can streamline the care of HF patients. 3) Identify techniques to decrease early HF readmission rates.*

Heart Failure Care at the Bedside: Tools of the Trade

Connie Lewis, RN, ANP-BC, ACNP-BC, CHRN

4:30 pm – 5:00 pm *Objectives : 1) Discuss current challenges for nurses caring for in-hospital HF patients. 2) Define specific tools for assessing in-hospital HF patients. 3) Identify best practice teaching techniques to educate HF patients.*

Observation Medicine - Track 3

Moderator: Michael A. Ross, MD

Observation Services: Past, Present, and Future

Chris Baugh, MD

2:30 pm – 3:00 pm *Objectives: 1) Discuss the history and scope of Observation Services and Observation Units in the U.S. health system. 2) Discuss the potential impact of expanded observation unit care on health care providers, payers, and patients.*

Coding and Billing Observation Services: Show Me the Money

Sandra D. Sieck, RN, MBA

3:00 pm – 3:30 pm *Objectives: 1) Explain physician CPT billing and hospital APC billing for observation services. 2) Understand the economic impact of various observation services delivery models.*

How to Manage an Observation Unit

Bret Nicks, MD, MHA

3:30 pm – 4:00 pm *Objective: 1) Illustrate "best practice" principles for managing an observation unit - including removing bottlenecks, working with hospitalists, and standardizing protocols. 2) Discuss the pros and cons of alternative models of providing observation care when an ED observation unit is not available.*

The Latest with Chest Pain Observation

James McCord, MD

4:00 pm – 4:30 pm *Objectives: 1) Discuss the latest research on chest pain risk stratification, serial testing, stress testing, and imaging. 2) Discuss how to develop a chest pain protocol based on available resources, patient and test characteristics, and cost.*

Beyond Chest Pain - Syncope, TIA, etc.

Anwar D. Osborne, MD

4:30 pm – 5:00 pm *Objectives: 1) Review the latest evidence for accelerated diagnostic protocols for TIA and syncope. 2) Review the latest research for accelerated treatment protocols for heart failure, and acute onset atrial fibrillation 3) Understand how to expand the scope of a "chest pain unit" beyond chest pain.*

5:00 pm – 6:30 pm **Exhibit Hall Open with Meet-the-Exhibitors Reception**

5:00 pm – 6:30 pm **Abstract Poster Viewing - Meet-the-Poster Presenters**

Thursday, May 3, 2012

Time Event

9:00 am – 2:00 pm **Registration and Information Booth Open**

7:00 am – 8:00 am **Exhibit Hall Open with Continental Breakfast**

7:00 am – 8:00 am **Abstract Poster Viewing**

Concurrent Tracks

Hot Topics in ACS Disease Management - Track 4

Co-Moderators: Michael C. Kontos, MD & Donna L. Hunn, RN, MSc, MAN, ANP-C

Venus and Mars are Closer Than You Think: ACS Similarities and Differences in Men and Women

8:00 am – 8:30 am *Jamie Conti, MD*

Objectives: 1) Compare and contrast differences in ACS presentation for men and women. 2) Review recent advancements in women's cardiovascular health. 3) Identify the key issues that should be incorporated into evaluation of women in a chest pain center.

False Positive STEMI Activation: Frequency and Common Causes

8:30 am – 9:00 am *Michael C. Kontos, MD*

Objectives: 1) Define a False Positive STEMI activation. 2) Review the causes and the regularity of False Positive STEMI activations. 3) Illustrate common examples of STEMI activations.

The Next Frontier in STEMI Care: Door-in/Door-out Time and Implications for STEMI Care in the US

9:00 am – 9:30 am *James E. Jollis, MD*

Objectives: 1) Review the different time components that make up total door-to-balloon time for patients requiring transfer for STEMI. 2) Identify times when fibrinolytics may be preferred to primary PCI for patients presenting to a non-PCI center.

Update in ACS Guidelines Care: ACC, AHA, ESC, M:L and Others: What's the Same and What's Different

9:30 am – 10:00 am *L. Kristin Newby, MD*

Objectives: 1) Compare and contrast the different organizational changes in the updated guidelines. 2) Relate how changes in guidelines will affect chest pain management.

10:00 am – 10:30 am **Open Panel Discussion with Q & A**

Hot Topics in ACS Disease Management Track Faculty

Hot Topics in Atrial Fibrillation & Heart Failure - Track 5

Co-Moderators: Richard V. Aghababian, MD & Phillip D. Levy, MD, MPH

Resources and Tools for the Disease Management of Atrial Fibrillation

Richard V. Aghababian, MD and Philip D. Beckley, PhD

8:00 am – 8:30 am *Objectives: 1) Present an overview of SCPC's certification process for atrial fibrillation. 2) Describe existing and evolving approaches to management of acute atrial fibrillation, including a discussion of new anticoagulation therapy, best practices and pathways. 3) Discuss planned components of SCPC's atrial fibrillation certification process, highlighting its relevance to the certification process.*

Congestive Heart Failure & Atrial Fibrillation: When One Thing Leads to Another

Chad E. Darling, MD

8:30 am – 9:00 am *Objectives: 1) Discuss the epidemiological link of heart failure with atrial fibrillation, focusing on the overlap in patient comorbidity. 2) Present an overview of the pathology contributing to atrial fibrillation development in patients with underlying heart failure. 3) Describe differing approaches to the management of heart failure for patients with atrial fibrillation.*

Risky Business: Risk Stratifying Heart Failure

Phillip D. Levy, MD, MPH

9:00 am – 9:30 am *Objectives: 1) Discuss clinical and laboratory factors which contribute to risk (both low and high) among patients with acute heart failure. 2) Compare and contrast existing risk models for acute heart failure. 3) Present a model which incorporates risk stratification into emergency department disposition of acute heart failure patients.*

Moving Patients Through the ED - A Model Based on Shared Decision Making

Mitchell T. Saltzberg, MD

9:30 am – 10:00 am

Objectives: 1) Present an overview of shared decision making within the context of acute heart failure care. 2) Compare and contrast perspectives on in-patient management of acute heart failure from differing medical specialties. 3) Discuss mechanisms which can be used by involved stakeholders to encourage appropriate resource utilization and facilitate throughput for patients with acute heart failure.

Passing the Baton: Transitioning from Inpatient to Outpatient

Speaker TBD

10:00 am – 10:30 am

Objectives: 1) Present an overview of care transitions and their relevance to acute heart failure management. 2) Discuss emerging data on the importance of coordinated inpatient to outpatient care. 3) Describe a model based on care transitions which seeks to decrease ED utilization and rehospitalization for decompensated heart failure.

Transitions of Care - Track 6

Moderator: Sandra G. Sieck, RN, MBA

Transitions of Care and Bundled Reimbursement

Mark R. Starling, MD, CMO

8:00 am – 8:45 am

Objective: Describe what to expect and how to prepare for the shift from fee-for-service to fee-for-value and changes in the reimbursement payment system.

The Role of the ED Gatekeeper

James W. Hoekstra, MD

8:45 am – 9:15 am

Objectives: 1) Discuss the concept of Transitions of Care. 2) Explain the role of the ED in reducing readmissions for HF, MI, PNA. 3) Explain the role of the ED in determining observation versus admission. 4) Discuss the importance of ED communication with primary/specialty care in transitions of care.

The Role of the Hospitalist

Alpesh Amin, MD, MBA

9:15 am – 10:00 am

Objectives: 1) Discuss the interactions and roles of the ED doctor and hospitalist. 2) Present examples of protocols that have helped address the issues most important in individual patient care and hospital observation and treatment.

New CMS Rules with Discharge Planning

Nancy Skinner, RN, CCM

10:00 am – 10:30 am

Objectives: Explain and answer questions about the new federal rules requiring hospitals to reduce readmissions, test sustainable funding streams for care transition services, maintain or improve quality of care, and document measureable saving. 2) Apply the new rules to some of the current practices.

10:30 am – 11:15 am

Exhibit Hall Open with Refreshment Break

10:30 am – 11:15 am

Abstract Poster Viewing

Concurrent Sessions

Ask-The-Experts Sessions

Moderator: Brian J. O'Neil, MD

Controversies in Post-Cardiac Arrest Care: Who do we Cool? Who Needs a Cath? When do we Pull the Plug? Do we Really Need Centers of Resuscitation?

Romergrgyko G. Geocadin, MD, Robert W. Neumar, PhD, MD and Brian J. O'Neil, MD

11:15 am – 12:45 pm

Objective: 1) Review and debate the current resuscitation literature with regards to indications and contraindications to the following: a) therapeutic hypothermia in patients resuscitated from out of hospital cardiac arrest; b) emergent cardiac catheterization; c) removal of life support; and d) referral to Centers of Resuscitation.

Case Studies

Moderator: Chris Ghaemmaghami, MD

Case Studies

Patient - featuring Drexdal Pratt, Director of Division of Health Service Regulation

11:15 am – 12:45 pm

Heart Failure - featuring Steven Arze, MD, Baylor Health Care System

CPC Accreditation Successes - TBD

12:45 pm – 2:15 pm

Exhibit Hall Open with Lunch

12:45 pm – 2:15 pm

Abstract Poster Viewing

Concurrent Sessions

2:15 pm – 3:00 pm **Evolution of a Statewide Cardiac and Stroke Program...It Should be in Your Future**
Marvin Wayne, MD
Objectives: 1) Describe the need to create and certify cardiac and stroke centers. 2) Discuss methods of achieving consensus regarding process. 3) Discuss designation process. 4) Collect and analyze QM to ensure improved results.

2:15 pm – 3:00 pm **Developing High Quality STEMI Systems of Care**
Akshay K. Khandelwal, MD
Objectives: 1) Outline the policy changes that can foster ideal environments for treating STEMIs, including transport protocols and triage algorithms. 2) Discuss the resources needed to maximize response, including assessment toolkits and field devices and data.

2:30 pm – 5:00 pm **Exhibit Hall Closed - Dismantle Exhibits**

Plenary Session

3:00 pm – 3:45 pm **Conference Highlights**
Panel
Objectives: 1) Provide an opportunity for participants to review the content of sessions they were unable to attend. 2) Understand how to maximize what was learned during the conference by integrating this knowledge with everyday practice...."Moving Science to the Bedside"

4:00 pm – 4:45 pm **SCPC Membership Meeting**
